🚗 Park**Champ**

Download the Park**Champ** App from the AppStore or Android

GET IT ON Google Play   Download on the App Store

Step 1: Signup

You will need your phone number, email address and payment info to sign up

*Make sure to tap allow when ParkChamp App asks to access your location as this allows you to use the app to enter the parkade and start your parking session.
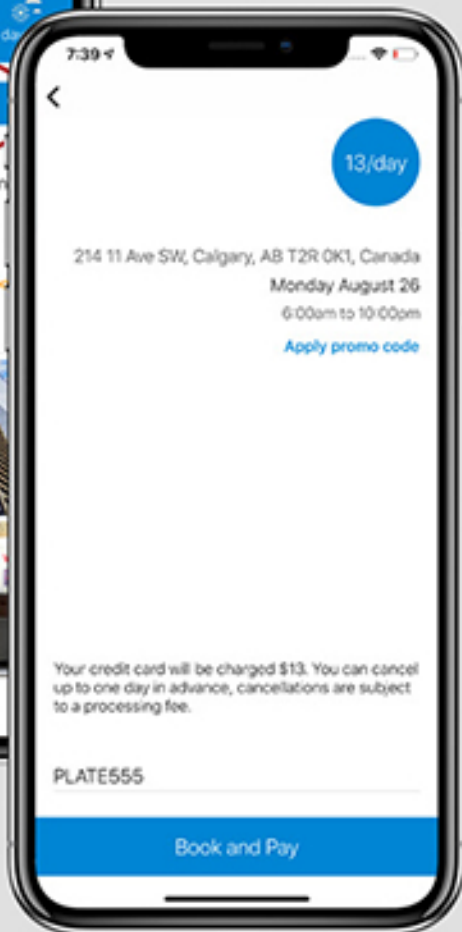

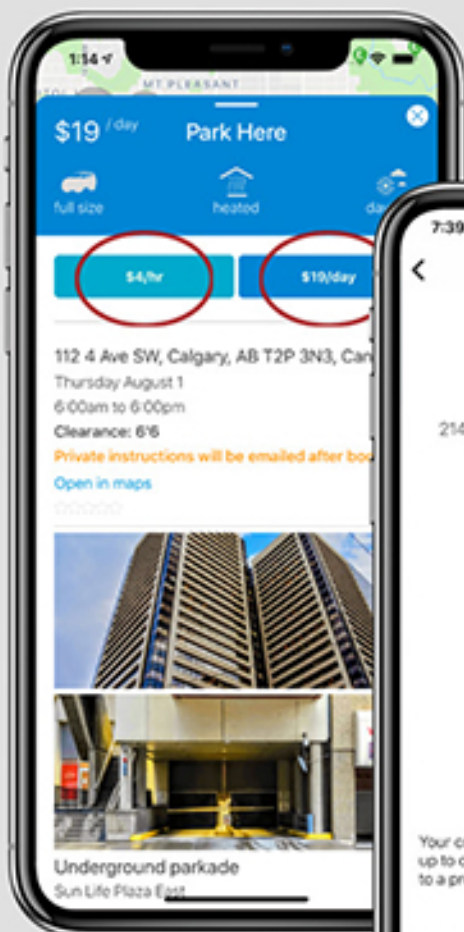

*Make sure to allow camera access to be able to scan into the parkades.

Step 2: Choose your parking spot

You can book your parking spot on the fly or up to 2 weeks in advance.

Scan to Park at the parkade **instantly** or pre-reserve by tapping on the map marker for the location you want to park at.
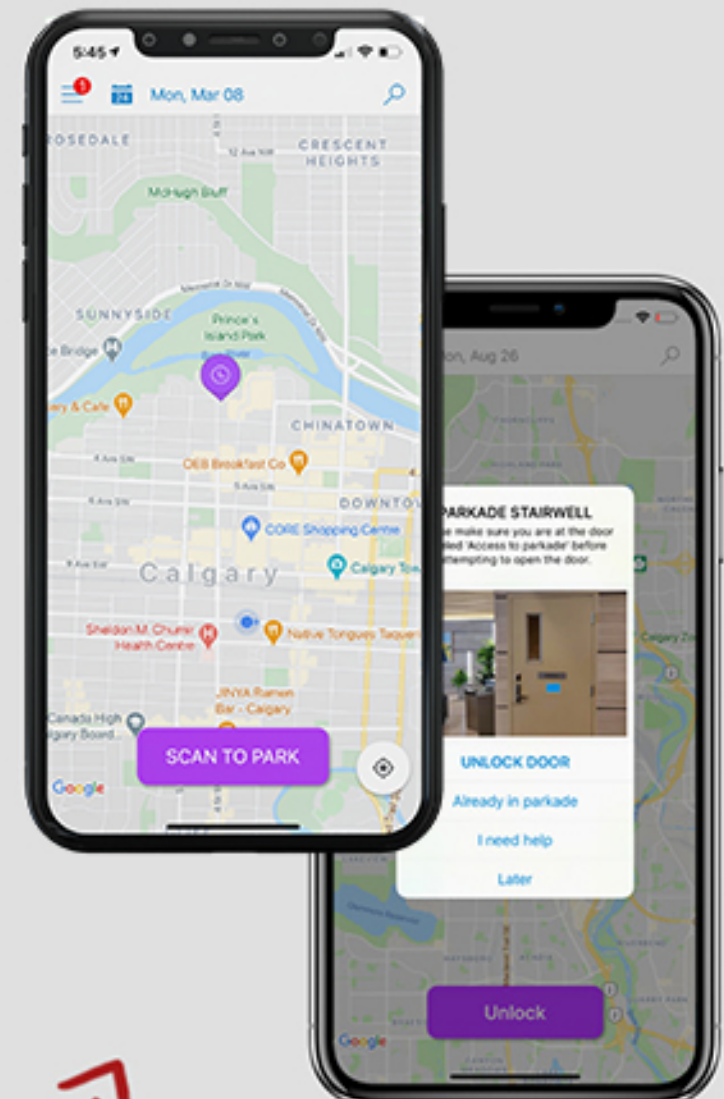

Step 3: Reserve your parking spot

Choose either hourly or daily option to reserve your parking space.

Step 4: Access parkade

Your app will become a temporary access card to your booked parkade.

Use your app to unlock the parkade doors to enter and leave.

Tips:

1. Make sure ParkChamp can access your location so you can use the app to enter and exit the parkades.

2. Make sure you have a strong data connection.

3. Remember to review the parking rules and instructions in the app.

4. If you encounter an error with the app or any issues parking, use the support icon to call us and we will be happy to assist you remotely in real-time.

5. Book your parking stall before leaving your house or days in advance to ensure your stall is secured incase the parkade fills up.
